Supplementing with Aquasonic

Sunday
Calcium Sup 5ml per 20L
(Test your Calcium, supplementing may not be necessary as you can overdose)
(Encourages growth of hard corals and coralline algae)

Monday
Iodine 1ml per 50L
(We advise to test before dosing as an overdose of this product can be toxic)
(Essential for soft corals and anemones)
If you do not have a test kit – use Seachem Iodide which is much safer.

Tuesday
Bio Trace 1ml per 50L
(A selection of chemicals found in natural salt water)

Wednesday
Strontium-Sup 1ml per 50L
(Assists corals in the use of Calcium)

Thursday
Bio-Vit 1ml per 50L
(Vitamins and Amino acids for all marine life)

Friday
Seafood 5ml per 200L
(Invertebrate and coral food)
Mac-Algae-Sup 1ml per 50L
(nutrients for macro algae growth)

Saturday
Magnesium Salt 1tsp per 80L
(helps to stabilise pH and Calcium levels)

Sun - Calcium
